Mohammad Nabizada

HIGHLIGHTS OF QUALIFICATIONS

- Proficient in **Data Structures and Algorithms**, designing efficient solutions for complex computational problems.
- Skilled in **SQL Databases**, with experience in querying, managing, and optimizing relational databases.
- Experienced in **Python** and **C++**, leveraging both for software development and problem-solving.
- Familiar with **NumPy** and **Scikit-learn**, applying data analysis and machine learning techniques to real-world datasets.
- Proficient in **Git** and **GitHub**, utilizing version control for collaborative software development.
- Knowledgeable in **Web Programming**, building and deploying dynamic web applications.
- Strong **teamwork** skills, collaborating effectively in group projects to achieve shared goals.

EDUCATION

- **Bachelor of Computer Engineering**
- Sadjad University, [Mashhad, Iran]

2022 – Expected 2026

- Cumulative GPA: 16.85/20

RESEARCH INTERESTS

- Machine Learning and Artificial Intelligence: Focused on developing and applying advanced algorithms for data-driven decision-making, predictive modeling, and intelligent systems.

HONORS AND AWARDS

- **Top-Ranked Student, Semester One**, Sadjad University, 2022
Recognized as the number one student in the Computer Engineering program for outstanding academic performance.
- **A-Ranked Student**, Sadjad University, 2022 – Present
Consistently maintained A-rank status for academic excellence in the Computer Engineering program.

SELECTED COURSES AND GRADES

- **Data Structures**, Sadjad University, Grade: 16.50/20
- **Programming Concepts**, Sadjad University, Grade: 20/20
- **Advanced Programming**, Sadjad University, Grade: 17/20
- **Linear Algebra**, Sadjad University, Grade: 20/20
- **Artificial Intelligence**, Sadjad University, Grade: 15/20

PERSONAL SKILLS AND COMPETENCIES

Language

- Persian: native speaker
- English: proficient user (C1)

Software

- **Git and GitHub:** Proficient in version control systems for collaborative software development and code management.
- **Linux:** Experienced in navigating and utilizing Linux environments for development and system operations.
- **Microsoft Word and Excel:** Skilled in using Microsoft Office tools for documentation, data analysis, and project organization.
- **Google Colab and Jupyter Notebook:** Familiar with cloud-based and local environments for interactive Python programming, data analysis, and machine learning development.
- **Docker:** Knowledgeable in containerization for creating, deploying, and managing applications in consistent environments.

HOBBIES

- Reading Novels
- Playing Football
- Travelling
- Watching Movies
